RE: Idaho Department of Fish and Game Hatchery NPDES Permits

Dear Mr. Kowalski:

As the Fish Production Manager for the Idaho Department of Fish and Game (IDFG), I am the authorized signatory agent of NPDES Discharge Monitoring Reports (DMRs) submitted to the EPA by IDFG-operated hatcheries. These facilities operate under general permits IDG130000 and IDG131000, which have been administratively extended beyond their November 2012 expiration date and remain currently in force. I am writing to update the list of other IDFG positions that may serve as my duly authorized representatives to sign DMRs. In the past, this authorization has been extended to individuals. However, advancing careers and staff turnover necessitate continual change to the list of authorized representatives. Therefore, I would like to identify positions, rather than incumbent staff, to which DMR signing authority should be extended. The permits, facilities, and positions authorized to sign DMRs as my representative for their respective facility are:

IDG130003	Hagerman Fish Hatchery	Fish Hatchery Manager Fish Hatchery Assistant Manager Fish Culturist
IDG130013	Niagara Springs Fish Hatchery	Fish Hatchery Manager Fish Hatchery Assistant Manager Fish Culturist
IDG130016	Magic Valley Fish Hatchery	Fish Hatchery Manager Fish Hatchery Assistant Manager Fish Culturist
IDG130030	Mackay Fish Hatchery	Fish Hatchery Manager Fish Hatchery Assistant Manager Fish Culturist

Keeping Idaho's Wildlife Heritage

Thank you for considering my request to update DMR signing authority for IDFG-operated hatcheries to reflect hatchery positions rather than incumbent staff. If you have any questions regarding IDFG signatory agents for these documents, please do not hesitate to contact me.

Sincerely,

Gary Byrne
Fish Production Manager
